Profile

I'm an enthusiastic Frontend Developer seeking an entry-level position with a company to use my skills in coding and troubleshooting, and to grow up to be an expert Frontend Developer.

I believe that I can be an asset to your company because I have shown that I have an understanding of the basic skills of javascript, react and etc. I have a passion for coding which I have demonstrated from 2020 of self-study and creating my own side-projects.

I also have a teachable attitude and desire to learn all about programming.

Employment History

Wismettac Asian Foods

2015 - Present
